

CASE STUDY

Transforming IT Infrastructure for a Leading University

COMPANY SNAPSHOT

Industry: Higher Education

A prominent public research university in Texas, serving approximately 10,000 students across seven colleges, offering over 90 academic degree programs. The university is recognized for its commitment to providing high-quality education and fostering innovation within the region.

THE CHALLENGE

The university was in the process of merging with a health institution, which required a significant IT infrastructure refresh. The goal was to seamlessly integrate the IT systems of both institutions to ensure continuity and improve overall efficiency. This was a critical challenge as it involved replacing existing infrastructure and required minimal downtime to avoid disruptions in university operations.

THE WEAVER GOV ADVANTAGE

Weaver GOV, in partnership with Dell Technologies, was selected for this project due to our expertise and HUB credentials. Our subject matter experts and strategic partnerships positioned us uniquely to address the complex requirements of the university.

PROJECT CAPABILITIES SHOWCASE

- IT Infrastructure Design and Implementation
- Data Center Solutions
- Virtual Desktop Infrastructure
- Partnerships with Leading Technology Providers

Our solutions significantly improved the institution's IT infrastructure, ensuring stability and efficiency with minimal downtime.

Senior Account Executive
Weaver Technologies

WHY WEAVER GOV?

Weaver GOV's approach is characterized by our commitment to delivering solutions tailored to the unique needs of our clients. Our strategic partnership with Dell Technologies and our deep expertise in IT infrastructure make us a preferred choice for comprehensive and scalable IT solutions.

THE RIGHT IT SOLUTION

To meet the university's needs, Weaver GOV designed a robust solution featuring Dell server and storage solutions. This included a production cluster with Dell's MX Blade Servers and Powerstore Storage Array, and a virtual desktop infrastructure powered by another MX with Powerstore, all utilizing VMware solutions.

THE RIGHT TIME: EXECUTION

The project was meticulously planned and executed over several months. The implementation process involved careful design, agreement on the final build, and a seamless migration with minimal downtime, ensuring a smooth transition for both the university and the health institution.

OUTCOMES

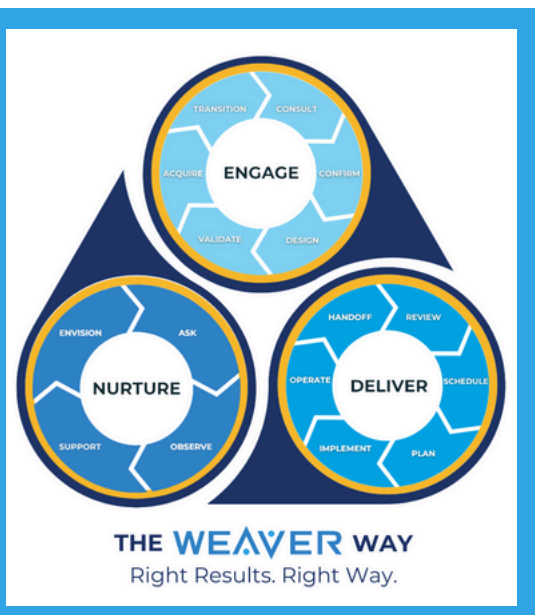

The implementation of the new data center technologies resulted in a stable and efficient IT infrastructure for the university. This immediate improvement was evident in the reduced downtime and enhanced system performance. Over time, the new infrastructure is expected to offer better lifecycle management and require minimal IT oversight.

Transforming IT Infrastructure for Higher Education

At Weaver GOV, we revolutionize higher education institutions with innovative technology, specialized expertise, and efficient processes. Our agile approach to IT modernization meets the unique needs of universities enhancing their IT infrastructure and operational efficiency.

We deliver customized solutions for data center modernization, virtual desktop infrastructure, and comprehensive IT integration. Partnering with industry leaders like Dell Technologies, we ensure stable, scalable, and efficient IT environments.

The Right IT Solution

We focus on creating the Right Solution for our customers. You will never find us pushing unneeded products.

The Right Time

We believe the Right Time will reveal itself if we take a patient and deliberate approach. We don't believe in pushy tactics.

The Right Reason

We believe integrity is real, that it is valuable and it's all about doing things for the Right Reason – the only way we know how.

KEY BENEFITS

- SEAMLESS INTEGRATION
- ENHANCED PERFORMANCE
- EFFICIENT DATA MANAGEMENT
- SCALABLE SOLUTIONS
- REDUCED DOWNTIME
- ONGOING SUPPORT
