How Weaver Government Solutions Transformed IT Infrastructure for a Leading University in San Antonio

COMPANY SNAPSHOT

Industry: Higher Education

A prominent university in San Antonio, serving over 34,000 students across four campuses, is the largest public research university in the city and a leader in education and research.

THE CHALLENGE

The university sought to enhance its IT infrastructure with industry-leading technology experts who could assist in deploying high-level technologies across the institution. It required strategic IT solutions to maintain seamless operations, advance research capabilities, and support its large student and faculty base.

THE WEAVER GOV ADVANTAGE

Weaver GOV was uniquely positioned to address this challenge due to its team of subject matter experts and deployment engineers specialized in Information Technology. Weaver GOV's HUB credentials, along with a strong partnership with Dell Technologies, made them a perfect fit for the university's needs. Dell Technologies recommended Weaver GOV because of their expertise and strategic partnership.

WHY WEAVER GOV?

Weaver GOV provided custom-crafted solutions tailored to the university's unique technological needs, leveraging strategic partnerships with top-tier technology providers like Dell Technologies. Their exceptional expertise in IT deployments and technology solutions ensured the university received a comprehensive, effective solution.

THE RIGHT IT SOLUTION

Weaver GOV partnered with Dell Technologies and VMware to implement Dell Hyper-Converged Technologies and VMware software solutions. The solution included redundancies with a stretch cluster and a high bandwidth/low latency network. Services involved Dell/VMware Data Center Technology Services, Network Services, Virtual Desktop Infrastructure (VDI) Configuration and Deployment, and Microsoft Services.

THE RIGHT TIME: EXECUTION

- **Consultation and Planning:** Analyzed the university's IT infrastructure, identified gaps, and developed a strategic deployment roadmap.
- **Execution and Deployment:** Implemented Dell Hyper-Converged Technologies and VMware solutions, ensuring seamless Virtual Desktop Infrastructure (VDI) deployment with redundancies.
- **Post-Deployment Services:** Provided ongoing network and Microsoft services, along with continuous consulting and support.

Advancing Higher Education with Customized Technology Solutions

At Weaver GOV, we specialize in transforming IT infrastructures to meet the specific needs of higher education institutions like this prominent university in San Antonio.

Our approach combines top-tier talent, innovative processes, and the latest technologies to deliver solutions that are secure, robust, scalable, and ready for future growth.

Our commitment to clients extends beyond deployment, ensuring that our solutions support their long-term success and expansion.

OUTCOMES

The project resulted in the successful deployment of high-level technologies despite the SME turnover. Weaver Technologies established seamless technology operations across four campuses, enhancing the IT infrastructure with improved network redundancy and performance. The university immediately accessed advanced technology insights and services, and the continuous partnership ensures the university's evolving IT needs are met.

THE RIGHT REASON

Weaver GOV partnered with Dell Technologies to deliver a tailored IT strategy that addressed the university's unique challenges. By focusing on custom-tailored products and services rather than standard solutions, Weaver GOV ensured seamless deployment and ongoing support, resulting in immediate infrastructure improvements and a lasting partnership.
