Delivering Stronger, Smarter Connectivity for a Texas-Based University

COMPANY SNAPSHOT

Industry: Higher Education

This Texas-based university sought a trusted partner for a campus-wide network deployment. With expanding student housing and rising digital demands, it needed a high-performance, scalable solution delivered quickly—without sacrificing reliability or trust.

THE CHALLENGE

The university needed a partner to complete a summer network rollout before the fall semester. Leveraging a prior core switch upgrade, Weaver Government Solutions and Ruckus deployed cabling, switches, and wireless access points campus-wide—including new dorms—quickly, seamlessly, and with minimal disruption.

THE WEAVER GOV ADVANTAGE

WeaverGOV led the solution architecture for the entire project, managing requirements gathering, equipment planning, implementation, and fine-tuning. Our engineers provided end-to-end services—including cabling, switch installation, and access point deployment—while working around a firmware upgrade challenge mid-project. Close collaboration with Ruckus support and university stakeholders ensured on-time delivery.

WHY WEAVER GOV?

The university had partnered with WeaverGOV on past infrastructure projects and returned because of our consistent execution and trusted expertise. Our ability to scope accurately, respond quickly, and deliver high-performance results—without surprises—made us the go-to choice once again.

THE RIGHT IT SOLUTION

Weaver custom-crafted a solution to meet the university's unique needs, integrating Ruckus wireless access points and switches with our structured cabling services. Our team designed the network architecture and provided thorough testing support, ensuring a seamless, high-performance deployment tailored to the campus environment.

THE RIGHT TIME: EXECUTION

The entire project was completed in 3 months during the summer break, ensuring readiness before students returned. Despite a firmware upgrade issue, Weaver engineers worked closely with Ruckus and the client to meet all technical and scheduling requirements without disruption.
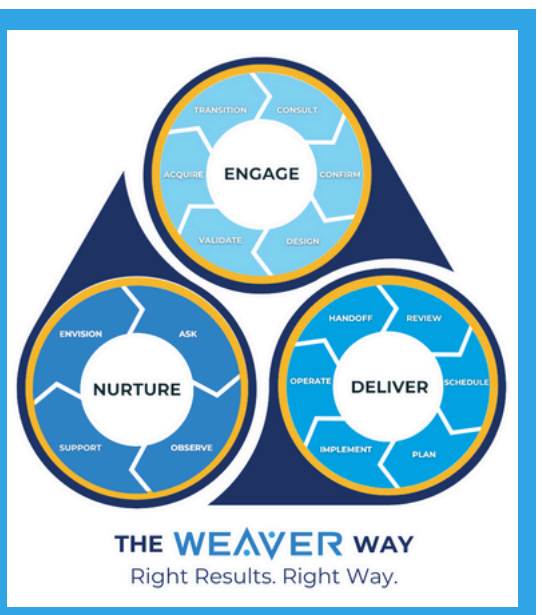

OUTCOMES

The project delivered improved wireless performance across the campus, with a seamless rollout of new infrastructure in student housing. Work was completed on time to meet critical semester deadlines, resulting in high satisfaction and full operational readiness for the university.

Built on Trust, Engineered for Higher Ed

At WeaverGOV, we don't just install equipment—we build lasting partnerships. Our higher education clients trust us for honest guidance, fast execution, and solutions tailored to their campus needs, supporting both students and staff.

Each project is an opportunity to earn trust and deliver results. By combining technical expertise with a commitment to service, we enhance connectivity, improve operations, and create long-term value.
